PROFILE SUMMARY

A motivated and enthusiastic individual with a degree in BCom, currently pursuing Web Designing and Development studies, and certified in Tally. Eager to apply my skills in UI/UX & web designing to contribute effectively to a dynamic work environment. Seeking an entry-level opportunity to gain practical experience and further develop my technical and analytical abilities.

SKILLS

UI/UX DESIGNING

- Knowledge of responsive web designing tool like Photoshop, Figma and Adobe XD.
- Proficient in work like UI design of websites, prototyping, splash-screen, image restoration, glass effect, filter effects, mockups, creating posts and many more.

WEB DESIGNING

- Proficient in creating responsive websites using HTML5, CSS3, and JavaScript. Experienced in designing mobile-friendly and cross-browser compatible layouts.
- Actively expanding skills in jQuery, Bootstrap, Sass, and Less as part of an ongoing web development course.

PROJECT DETAILS

1. UI/UX Design Projects

Tools: Figma

- Designed clean, user-focused interfaces for various concepts including:
 - Job Voyage** – a job search app with smart filters.
 - Celeste Couture** – a fashion e-commerce website.
 - Selene Studios** – a photography portfolio landing page.
 - Artiq** – a digital illustration marketplace landing page.

2. Responsive Website Development

Tools: HTML5, CSS3, MediaQueries

- Flexbox Layout** - Built a responsive landing page using CSS Flexbox.
- Grid Layout** - Designed a structured multi-section site with CSS Grid.
- Figma to HTML** - Converted Figma designs into responsive HTML/CSS pages.
- PSD to HTML** - Created a pixel-perfect webpage from a PSD mockup.
